CENSUS OF NEWFOUNDLAND, 1945

POPULATION OF NEWFOUNDLAND

BY MARITAL STATUS AND SEX

(Including classifications of marital
status by age groups and sex)

Report No.
PN-4

(Price: 10 cents)

PREFACE

As part of a series giving final population figures from the 1945 Census of Newfoundland, this report shows Newfoundland's population by marital status and sex, and includes data to show the number of single, married, widowed and divorced persons of each sex classified by age groups. Earlier reports in this series gave the population of Newfoundland in 1945 for all districts, towns and settlements according to the following classifications in turn: (1) sex; (2) age groups; and (3) religious denominations. Other reports to follow in the "PN" series will deal with such subjects as literacy, ethnic origin, schooling, birthplace, etc.

Tables 11 and 12 of this report give figures for Newfoundland as a whole, the first showing marital status and sex at each census from 1901 to 1945 inclusive, and the second providing an additional breakdown by age groups for the Census of 1945. Tables 13, 14 and 15 present data for the 25 census districts, while Tables 16 and 17 show the number of single, married, widowed and divorced persons for individual towns and settlements.

The reports in this series represent final tabulated results from the Census of Population, Agriculture and Fisheries, taken by the Newfoundland Government in 1945. These tabulations have been carried out in the Dominion Bureau of Statistics at the request of Newfoundland. Further reports are being released to show classifications of the population by occupations, industry, income, etc., as well as data relating to households and families, and summary compilations of the Census of Agriculture and Fisheries.

Herbert Marshall

Dominion Statistician.

May 26, 1949.

CENSUS OF NEWFOUNDLAND, 1945

POPULATION OF NEWFOUNDLAND

BY LITERACY AND SEX

Report No.
PN-5

(Price: 10 cents)

PREFACE

9

This report presents tables dealing with the subject of literacy, and forms part of a series giving final population figures from the 1945 Census of Newfoundland. The tables herein show the population 10 years of age and over classified as to the number who can read and write, can read only, or cannot read or write. Previous reports in this series presented data for all districts, towns and settlements by each of the following classifications in turn: sex; age groups; religious denominations; and marital status (including classifications of marital status by age groups). Later reports will show information by districts for such subjects as ethnic origin, birthplace, schooling, etc.

Tables 24, 25 and 26 of this report give comparative figures on literacy and sex for the Censuses of 1945 and 1935, the first for Newfoundland as a whole, the second for census districts, and the third for towns and settlements of 1,000 population and over. Table 27 presents figures on literacy at the 1945 Census for all towns and settlements regardless of size, arranged alphabetically by districts.

The reports in this series represent final tabulated results from the Census of Population, Agriculture and Fisheries, taken by the Newfoundland Government in 1945. These tabulations have been carried out at the request of Newfoundland. Further reports are being released to show classifications of the population by occupations, industry, income, etc., as well as data relating to households and families, and summary compilations of the Census of Agriculture and Fisheries.

Herbert Marshall

Dominion Statistician.

June 2, 1949.

(1) Refers to Bell Island as a whole, and includes such settlements as Freshwater, Lance Cove (Bell Island), and West Mines.

(2) Figures for Southside (pt.) in 1935 are an estimate, based on Southside as a whole, part of which is included within the incorporated limits of St. John's City.

(3) Formerly called Grand Falls Station.
